

Language and Vocabulary

LV2

Choose and Chat

Benchmarks: C.1a

Objective

The child will use adjectives to describe objects.

Materials

- Classroom objects – *Choose eight classroom objects (e.g., eraser, chalk, block, ball, etc.).*
- Two Bags – *Place four objects in each bag.*

Activity

After teacher introduction, children use descriptive word clues to identify objects.

1. Place the bags of objects at the center.
2. Working in pairs, child one selects one of the objects in the “Child One” bag, and uses descriptive words to describe it to child two (e.g., “It is a rectangle and is black and soft”).
3. Using the clues, child two attempts to name the object.
4. If the object is named, child two removes it from the bag. If not named, the object remains in the bag.
5. Reverse roles and continue until all objects are identified.
6. Peer evaluation

Adaptations and Extensions

- Use other objects.

“It is a rectangle and
black and soft.”
